Professional Summary

MCA graduate with a strong foundation in Java, Data Structures, SQL, web technologies, and software development. Hands-on experience in Java Full Stack development through internships and academic projects. Seeking an entry-level Software Developer role to apply technical skills and contribute to building reliable software solutions.

SKILLS

- **LANGUAGES |** Java • C • JavaScript • Python
- **Technical Skills |** Data Structures • Algorithms • OOP
- **Web Technologies |** HTML • CSS • React.js
- **Frameworks & Tools** | JDBC •Spring Boot •Git & GitHub
- **Database Technologies |** SQL • MySQL
- Eclipse
- **Soft Skills |** Team player • Bias for action • Leadership

EDUCATION

- Vidyavardhaka College of Engineering, Mysore, Masters in Computer Application (MCA) — CGPA | 7.96
- JSS College for Women, Mysore, BCA — CGPA | 8.3
- Alvas PU College, Moodbidri, Mangalore, 12th — Percentage | 88.83%
- MDRS, Baby Betta, Mandya, 10th — Percentage | 89.76%

INTERNSHIP EXPERIENCE

QSpiders, Mysuru | Java Full Stack Intern **January 2026 – June 2026**

- Practised Core Java, OOP concepts, HTML and CSS through hands-on coding assignments.
- Applied debugging and problem-solving techniques to complete programming exercises and software development tasks.
- Gained exposure to Java Full Stack development concepts and technical presentations through structured training.

PROJECTS

AI-Based Pet Disease Identification & Ayurvedic Treatment Recommendation System

- Developed a dual-modality machine learning system to predict pet diseases using symptom-based data and classify dermatological conditions from pet images.
- Implemented Random Forest and deep learning models (EfficientNet-V2-S/ResNet-50) using Python, Scikit-learn, TensorFlow and image preprocessing techniques.
- Integrated a Flask-based web application and Ayurvedic recommendation engine to process user inputs, generate disease predictions, and provide condition-specific treatment suggestions.

Online Pathology Laboratory Management System

- Developed a web-based application to manage patient registration, test details, appointment booking, and medical reports.
- Implemented features for appointment scheduling, sample collection tracking, and medical report upload/download.
- Designed separate modules for Admin, Lab Employee, and Patient to streamline laboratory operations and data management

CERTIFICATIONS

- Salesforce Certification (ICT Academy)
- Java Programming – Coursera
- Data Structures – Coursera
- NCC "C" Certificate | 2023
